

Elite Esports Coaching: Championship Pathway

Course Introduction

A structured, year-long esports coaching pathway designed to help serious competitive gamers reach elite levels through expert coaching, wellness-driven training, and international exposure.

Learning pathway

- ✓ 13-16, 16+ Ages
- ✓ 96 Sessions
- ✓ 12 Months Duration
- ✓ 60 Mins per session

Months 1-3: Foundation & Stability

This phase establishes the fundamental skills and habits that will support all future growth. Players learn to play consistently rather than relying on luck or random performance spikes.

Months 4-6: Rank Improvement Phase

Players begin to see tangible results as their improved fundamentals translate into better performance. This is when rank climbing becomes consistent and predictable.

Months 7-9: Competitive Readiness

The focus shifts from ranked play to competitive environments. Players learn to perform under tournament pressure and develop the mental resilience needed for high-stakes matches.

Months 10-12: Elite & World-Level Preparation

Players are now ready to compete at the highest levels, with the skills, mindset, and experience needed to pursue professional opportunities and international competition.

Requirements

Gaming PC / Laptop with Selected Esports title installed.
